LAW TO BE ENFORCED

Young Girls Are To Be
Shielded.

STRICT CURFEW ORDINANCE

Police Will Endeavor to Prevent
Children Loafing on the
Streets at Night.

Any child under fifteen years of age, who, except in case of necessity, shall go or remain on any public street or highway after 9 o'clock in the evening and before 4 o'clock in the morning, unaccompanied by an adult person, shall be punished by a fine of not more than five dollars or by imprisonment not exceeding fourteen days.—Section 406, chapter 40, Penal Laws of Hawaii.

Section 407 says: Any parent or guardian having the care, custody and control of a child under fifteen years of age, who, except in case of necessity, shall permit such child to go or remain on any public street or highway after 9 o'clock in the evening and before 4 o'clock in the morning, unaccompanied by an adult person, shall be punished by a fine of not more than \$10 or by imprisonment not exceeding twenty-six days.—Section 407.

There is urgent need of a strict enforcement of the curfew law. Yesterday the Advertiser made public the startling condition of affairs witnessed last Saturday night on downtown streets, where young girls were seen by the score outside saloons and eating-houses talking with strange men and listening to and indulging in bad language. Particularly on Hotel street opposite the New England Bakery are the doorways and sidewalks filled with these unfortunate girls who are subject to the worst temptations.

High Sheriff Brown was asked yesterday in regard to the curfew law and its enforcement. "Yes," said the Sheriff, "there is a curfew law—section 406 of the Penal Laws. It was only lately that I have had my attention called to flagrant abuses of it, and this especially on Saturday nights. The young girls who frequent Hotel street on such occasions are supposed to belong to the women who sell leis along that street, and after their parents were ready to depart they went along with them. It has been brought to my attention that the street is becoming a resort for young girls who are not accompanied by parents or protectors at all. I was speaking to Judge Wilcox about the matter. Yes, the curfew law is in existence and the matter will receive police attention."

A visitor to Honolulu who was out seeing the city's sights on Saturday night, said yesterday that he was surprised at the presence of so many very young girls in the midst of hackmen, rowdies, sailors and others.

"I was passing a Chinese restaurant on Hotel street," said the visitor, "when a girl—a native—who could not have been over twelve years of age, pinned a pink on my coat and called me 'Sweetheart.' I was shocked. The air was full of curses and the street of drunken men. Surely the police could stop this."

ALL DIFFICULTIES NEARLY OVERCOME

The Wireless Telegraph That
Will Soon Be In
Operation.

As soon as the Maui station is in shape and repairs have been made to the pole at the Mahukona station, communication will be complete by wireless telegraphy between Honolulu and Hilo. Manager Cross and Messrs. Bowden and Pletz the experts have returned from a tour of the different stations, and report that the work of putting the instruments in place on Molokai, Lanai and Mahukona is completed. At Maui the station is not yet finished, and at Mahukona the pole must be repaired, for it suffered some damage in a recent storm, no one being at the station to attend to the stays at the time.

At the island of Lanai T. E. Hobbs is now located and he is instructing Mr. Neilsen, an electrician, in the workings of the system, and Neilsen will subsequently have entire charge at the local station, and Mr. Bowden will go to Molokai. After a time Mr. Pletz will be relieved here by Mr. Hitchcock, and he will assume charge at Mahukona. Each of the experts will have a number of students under instruction who will later take charge of the various stations.

The delay in completing the system has been on account of the fact that houses have had to be built at each of the stations, and difficulty has been experienced with the large poles by which the currents are transmitted to the instruments. Manager Cross hopes that the system will be in operation however in a few weeks more. For some time there has been perfect communication between Oahu and Molokai and Lanai, the delay in completing the station at Maui and the accident at Mahukona having delayed the completion of the connection to Hawaii.

FOR NEW SCHOOL.

Aala Warehouse to be Remodeled
and Bids are Made.

Specifications have been prepared for the alterations of the Aala warehouse which is to be used to house the scholars who have hitherto attended the Royal School. The mauka end of the warehouse only will be used. One hundred feet of it will be partitioned off and six rooms will be arranged in this portion, each of them capable of accommodating forty children. The specifications provided for well ceiled rooms finished in natural colors.

Bids have been received at the Board of Education for the construction of lavatories at the Kaahumanu school on Beretania street. They are as follows: W. H. Russell, \$2,785; Albert Trask, \$2,995; H. F. Bertlemann, \$3,439.
